

 **ONS ONCOLOGY NURSING SOCIETY**  
**CHEMOTHERAPY AND BIOTHERAPY COURSE**

**PROGRAM DESCRIPTION**

The Oncology Nursing Society **TWO-DAY DIDACTIC** course provides a comprehensive review of the knowledge needed to administer cytotoxic and biotherapeutic agents.

Upon successful completion of the course and post-test, participants will receive an ONS Chemotherapy and Biotherapy Provider Card. This card validates the participant has the theoretical foundation needed to administer cytotoxic and biotherapeutic agents. The card is valid for two years.

---

**DATES:** March 9 & 10, 2010 (ONS Chemotherapy and Biotherapy Course)

**TIME:** 8:00-4:30

Clinical Practicum: (Dates determined collaboratively with individuals registering)

**LOCATION:** Conference Center Auditorium, Fox Chase Cancer Center

---

**CONTINUING NURSING EDUCATION CREDIT:**

- ONS will award 13.5 contact hours to nurses who attend this program in its entirety.
- ONS is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
- ONS is approved as a provider of continuing education by the California State Board of Registered Nursing, Provider No. 2850.

**CANCELLATION AND REFUND POLICY** - see *General Information* link

**CLINICAL PRACTICUM OPTION** - an additional three-day clinical experience in Fox Chase Cancer Center's Infusion Room. Acceptance into the Practicum Course is contingent on meeting established criteria which includes: Successful completion of ONS Course, proof of current RN licensure, malpractice insurance, IV certification, and competency related to the management of vascular access devices. Nurses accepted into the Practicum Course are required to have a minimum of one-year oncology experience and expect to be administering chemotherapy on a regular basis in their practice.

Fox Chase Cancer Center will award 18 continuing education hours to those successfully completing the Clinical Practicum program.

**TARGET AUDIENCE:**

Participants must be licensed registered nurses who have been employed as such for a minimum of six months. This course content is appropriate for nurses who are new to chemotherapy administration, as well as for those who want a comprehensive review.

## ONS COURSE FACULTY:

**Terry Cuddahy**, RN, BSN, OCN, *Staff Nurse, Infusion Room, FCCC*

**Jeanne Held-Warmkessel**, MSN, CS, AOCN, APRN, BC, *Clinical Nurse Specialist, FCCC*

**Frances McAdams**, RN, MSN, AOCNS, *Director of Infusion Room and Clinical Research Unit, FCCC*

**Janice Moore**, RN, BSN, OCN, *Staff Nurse, Medical Oncology, FCCC*

**Chris Rafferty**, RN, BSN, OCN, *Staff Nurse, Medical Oncology, FCCC*

**Linda Regul**, RN, MSN, OCN, *Staff Nurse, FCCC*

**Kathleen Smith**, RN, BS, OCN, *Staff Nurse, Infusion Room, FCC*

## ONS CHEMOTHERAPY AND BIOTHERAPY COURSE OBJECTIVES:

- A. Identify various therapeutic modalities used to treat cancer with emphasis on chemotherapy and biotherapy.
- B. Describe the investigational process all drugs undergo to gain approval for use.
- C. Review ethical and legal issues related to cancer therapy.
- D. Identify factors affecting response to cancer therapy.
- E. Identify selected commonly used agents, their mechanisms of action, and any unique administration issues.
- F. Discuss safety precautions necessary when handling cytotoxic agents.
- G. Review chemotherapy dose calculations and practice examples.
- H. Identify nursing procedures and interventions for administering cytotoxic and biologic agents.
- I. Discuss two immediate complications of cancer therapy, extravasation and hypersensitivity, and the nursing measures required to prevent and/or reduce these complications.
- J. Identify selected systematic side effects of cytotoxic and biotherapeutic agents and the nursing interventions required to manage these side effects.
- K. Review specific patient and family education that may prevent and/or reduce the impact of systemic side effects.

## 3-DAY PRACTICUM COURSE OBJECTIVES:

- Demonstrate/discuss safe handling and disposal of chemotherapy/biotherapy agents.
- Demonstrate/discuss correct administration of parenteral chemotherapy/biotherapy agents including vesicants.
- Develop/describe an effective teaching plan for patients/families receiving treatment.

## TOPICS: ONS COURSE

- Definition of cancer
- Treatment modalities
- Drug development process
- Ethical and legal issues
- Goals of cancer therapy and response
- Principles of chemotherapy
- Principles of biotherapy
- Safe practice considerations
- Administration
- Care of the patient receiving cancer therapy
- Case studies
- Side effects of cancer therapy
- Post-treatment Care
- Case studies
