2009 MOBILE MAMMOGRAPHY SCREENING PROGRAM SURVEY

As you may know, ***1 in 8 women will get breast cancer at some point in her life.*** This year alone it is estimated that there will be about 180,000 new cases of breast cancer and approximately 46,000 deaths. The best protection against breast cancer is to detect it at its earliest stage and to treat it promptly.

Because of these alarming statistics we are exploring Fox Chase Cancer Center's Work Site Mobile Mammography Screening Program to encourage all female employees, spouses of employees, and retirees who qualify, to have regular mammograms.

The Fox Chase Cancer Center Mobile Mammography Screening Program follows the National Cancer Institute and the American Cancer Society recommendations for mammography screening:

ELIGIBILITY

A woman CAN get a mammogram on the van if:

- **Age 40 +: Screening mammogram. Once a year**
- **Age 35-39: One baseline mammogram (AETNA/UHC Members)**
- **She gives a prescription from her physician to the technician**
- **She gives the name and address of at least one physician**
- **She brings her last mammography films for comparison purposes (or we have them here at Fox Chase Cancer Center)**

A woman CANNOT get a mammogram on the van if:

- **She has breast implants**
- **She was diagnosed with breast cancer within the past two years**
- **She is currently being treated for breast cancer**
- **She has a new breast problem (feels a lump, skin changes or nipple discharge)**
- **She is breast feeding or has breast fed within the last nine months**

IF YOUR LAST MAMMOGRAM WAS NOT DONE ON THE FOX CHASE CANCER CENTER MOBILE VAN , YOU WILL NEED TO GET COPIES OF ALL YOUR FILMS AND BRING WITH YOU TO YOUR APPOINTMENT. OR, you may use the enclosed **AUTHORIZATION FORM to request your films be sent directly to Fox Chase Cancer Center. Please allow at least 10 days for the films to arrive at Fox Chase. This is important for an accurate and timely reading of your mammogram results.**

If you are in a high-risk group, you are welcome to call 1-888-FOX-CHASE for information on high-risk programs and treatment options.

A screening mammogram on the mobile van will take about 15 minutes.

FCCC currently has contracts with AETNA (United Healthcare) Independence Blue Cross of PA (Keystone 65), Horizon BC/BS of NJ Traditional, Horizon Blue Card PPO, Cigna, Keystone Mercy, AmeriChoice, Medicare, and Prudential to provide mobile mammography services to their members

Should you have an insurance that is not listed above, we strongly suggest that you call your insurance carrier to verify your eligibility for a Screening Mammogram on the mobile van .

If you are eligible for a screening, but Fox Chase Cancer Center does not accept your insurance, you have the option of paying \$120.00 for a screening on the day the van is at your place of employment.

If you are interested in a screening on the mobile mammography van please complete the bottom section of this form and return to: _____ no later than: _____.

You will be contacted with additional information.
